MIXED GRAIN MARKETS; WHEAT DOWN, CORN UP.

INTERESTING CHANGES IN SPECULATIVE GRAIN.

Wheat Showed Most Weakness and Coarse Grains Most Strength -Sales on Large Scale.

The bulls in the coarse grains had rather the best of things yesterday and succeeded in advancing the market a little, but this was not the case with the higherpriced grain, the upward course of which was checked for the time being. A lower level of values was established and this grain was deposed from its position as leader in the bull campaign in grain and corn succeeded to its place, holding it to the close of the day. All the speculative grain markets made a bad start yester-day, but they all made recoveries, and although wheat made a strong fight for the first position, it was unable to get back all that was lost earlier, and the close, while better than the bottom figures, was still from %c to %6%c lower than the day before. The cheaper grains, on the other hand, made new high-priced records, corn losing with a gain for the day of 15c all round, while oats, which led everything in the cereal line in strength, was from Pisc to 1%c better for the day. The trading, while not as heavy or exciting as it has een on previous days of the week, was atisfactory and encouraging.

Wheat yesterday was in the throes of iquidation, which was brought about partty by the rainmakers and partly by other causes, and not only was the upward movement of prices checked, but a lower level of values was established, and the market. after a long struggle to regain its former position as leader in the speculative grain arena, was compelled to close with a slight position as leader in the speculative grain arena, was compelled to close with a slight loss for the day. The bears had the whip hand most of the day, and especially earry, when the market was at its worst, and, authough the buils fought a hard and up-hill light, they were unable to make good their earlier losses. Among the more important influences that started the sching was the opening break in corn, and the large receipts at this point. Then the weather was said to be more favorable in the spring wheat section of the country, and the Cincinnau Price Current stated that \$50,00,000 bu, more had been raised in the world than last year. Laverpool was reported ad up, but this advance was not considered enough to follow the strong and higher closing on this side the day before, not-withstanding that Broomhall stated that the strength there was due to unfavorate crop reports from the Danube. There was considerable wheat for sale at the opening, and sept, started off at a occline of \$20 ac at \$50 c and sold at \$50 c down to \$50 c, while Dec. sold at \$60 c down to \$50 c, while Dec. sold at \$60 c down to \$50 c, while Dec. sold at \$60 c down to \$50 c, while Dec. sold at \$60 c down to \$50 c, while Dec. sold at \$60 c down to \$50 c, while Dec. sold at \$60 c down to \$50 c, while Dec. sold at \$60 c down to \$50 c, while Dec. sold at \$60 c down to \$50 c, while Dec. sold at \$60 c down to \$50 c

The rainman was chiefly responsible for The rainman was chiefly responsible for the early break in corn yesterday morning, reporting a heavy fall in sections of the West, where the drought had been the worst, and this fact, with the auvices that the crop in many places had received benefit, had the effect of bringing out a large smount of long corn and to depress prices here as well as elsewhere, September in this market opened %c off at 51%c and went down without a check to 56%c, but there was a sharp demand at the bottom, and a rebound in prices to 51%g%c, which was bid. The Cincinnatt Price Current estimated the crop at 1,500,000,000 bushels, and there were the regular reports of hot and dry weather, but they could not prevent the market from The Cincinnati Frice Current estimated the crop at 1,500,000,000 bushels, and there were the regular reports of hot and dry weather, but they could not prevent the market from sasing off to 51½c for September, which was brought about by the decline in wheat, but it shortly commenced to climb up again and by noon was 52½c, and the first trade in December for the season was made at 51½c. There was nothing encouraging about the cables from the other side, most foreign markets showing indifference. Liverpool closing only ½d better, and London unchanged. The clearances were small at 117,000 bushels, making 1,312,000 bushels for the week, against 2,512,000 bu last week.

The markets of the country were all strong during the last half of the session and the local crowd rushed September up to 52½c bid. There were no bears apparent and the culy sellers were longs for profit. At the close the market was strong and September sold at 52½c, and was bid that for more. For July 52c was bid. Sales for export were reported at 12 loads.

Oats at this point were in a stronger position than any of the other grain markets, but little attention was bestowed upon it until after corn had recovered from its depression, then there was a bid for Sept. of Ac, which was %c higher than the previous day's close; the opening, however, was at 33½c. Both the feeling and sentiment was builish, as advices regarding the crop were extremely poor. The late advance in corn gave oats another upward boost, Sept. having 34½c bid, and May selling at 38½c. At close there were sellers at 34½c for Sept., and at 38½c for May, July being bid 34½c.

If he can see it the other way some bad year and sell at the price of his guess, he may get even, but he couldn't get much for his chances sow."

—Wheat enthusiasts in Georgia are claiming that the wheat crop is worth more to the state this year than the fruit, which is saying a good deal. Whether this is true or not, tieoria has raised a splendid wheat crop, watch inust be very encouraging to the owners of the harge number of new mills that have been built in the State lately.—Dixie Miller.

—Licespool cables: "Weather hot and forcing. Danubian prospects of wheat crop very the certain, with indications of a p.or crop because of too much rain. European wheat strong on account of reports from the Danube. Market reversia and unsettled. Wheat and higher and firm; corn and higher and firm.

—A Moscow cable reports crop prospects in twenty-seven Provinces as far less promising than a month ago, and Russian grain harvest how not expected at best to exceed an average. In some districts the crops aimout destroyed oy unusual drought and heat, and essewhere grain washed out by floods or cut down by halistorms.

—Cincinnati Price Current says: "Corn promise further reduced. Present indication 1:00 too., too be. Wheat not much changed. Estimated 115 50.000 bu. Word's wneat crop, 50,000,000 bu. were last year.

—To Bartlett, Franier & Co.: Gale of Galeaburg, the issuest farmer in that locaity, says new crops of outs and timothy are light, and that hot winds have already damaged their corn more than 35 per cent.

—A letter from Lexington, Ia., says that the loss to the corn crop already smounts to ten bu. to the acre and damage still increasing.

—Argentine cables that corn supplies were diminishing and a good demand from Arrica.

—Corn receipts at primary market 25,000 bu., against 15,600 bu. last year. Primary suppments 520,000 bu.

—Primary suppments 520,000 bu.

—Primary suppments a primary market 25,000 bu., against 15,000 bu. avera sgo, and 455,000 bu., against 15,000 bu. avera sgo, and 455,000 bu. avera sgo, but there

Cash Grain, Flour, Etc.

WHEAT—Cash Market—Received, 2,563 sks. and 19 cars local and a cars through. Lower, but a good market at the decline. All the soft winter othered ready sale, the slevators continuing to take most, paying mainly 69%c for car icles No. 2 red, switched, one car selims at 65c and several at 69%c. Millers and 65%66%c, latter farge, and exporters bid Sept. Price to had higher, July shipment, destination weights; No. 1 and sold cel. at 69%c to 65%c; No. 4 cuttable at 6366c; skd. No. 2 red in slevator sold at 64%c; local winter in smaller offerings on apot, but more selling by the West, an exporter reporting considerable No. 2 worked to-day, and a city miller buying \$100.0 Twitter to arrive at 65%c; at that apot it takes No. 2 sold. At close No. 2 quotable at 6.4%c; interest of tartier.

ORN—Cash Eurhut—Received, 6 cars local and 6 cars through irregular, but a good demand, shippers taking non that sold, paying for itself to fice. I, o. b. 15%g56c for No. 2 and 15%c for No. 2 white. Sample, sales del. at 12% for No. 2 white. Sample, sales del. at 12% for No. 2 white. Sample, sales del. at 12% for No. 2 white. Sample, sales del. at 12% for No. 2 white. PRODUCE MARKETS. Local Fruit, Vegetable, Poultry, Egg and Butter Quotations.

Egg and Butter Quotations.

The produce markets were generally cull and wak yesterday, and prices as a rule were easier. Receipts of nearly everything were liberal, and the demand was rather slow. Shippers were incided to hold off, and, owing to the extremely had weather, the local demand was slow.

Potatoes were weak and lower yesterday. Receipts were heavier, and the demand was slow, as, owing to the hot weather, dealers are afraid to carry heavy stocks, and the shipping demand was less active, as the Michigan crop has begun to mature and the inquiry from the North is less active.

Calsarge continued scarce, firm and in good demand, who offerings generally of poor quanty.

Tomatoes were again weak and lower, as receipts of Southern stock were heavy, and offerings of home-grown were also liberal. Receipts were spentrally of good quality, but the demand was slow.

Offions were firm and in fair demand, with offerings light. Receipts of home-grown were barely equal to the requirements.

Cucumbers were weak and slow. Receipts were heavy, and as home-grown stock is coming in free ly there was little demand for consigned steel.

Grambo was weak and lower. Receipts were heavy, and as home-grown stock is coming in free ly there was little demand for consigned ments were not wanted.

Green corn was also dull and weak.

Green pease were scarce and firm. The market was bare of good stock.

String beans were scarce, in good demand and firm. Offerings were light, and generally of poor quality, and there was a good demand for choice stock.

Apples were quiet and the weak.

curring beans were scarce, in good demand and firm. Offerings were light, and generally of poor quantity, and there was a good demand for choice stock.

Other vegetables were dull and slow at unchanged prices.

Apples were quiet and the market was easier. Receipts were fairly heavy, while the demand was rather slow.

Peaches were dull and weak. Receipts were lighter than on the previous day, but there was only a limited demand, and that was confined to fancy fruit. Inferior home-grown stock was not wanted, and half-bushel baskets sold as low as 15 cents.

Plums were dull and slow, but there was no quotable change in prices. Receipts were light, but more than sufficient for the demand. Cterries were scarce and firm, as the season is about over, and offerings were light. Currants were dull and slow, with both demand and offerings light. Prices were unchanged. Blackberries were scarce, but the demand was light and prices steady.

Cantaloupes were weak and lower. Receipts were heavy, and there was some stock carried over from the previous day, Most of the Arkansas receipts were overripe, but Rocky Farm melons were in fair demand.

Watermelons were in fair demand, but offerings were heavy earle scarce, firm and in good demand at stiff prices.

Lemons were also scarce and firm.

Pineapples were scarce, firm and in good demand at stiff prices.

Lemons were also scarce and firm.

Pineapples were steady and unchanged, and other fruits were quiet and steady.

Live poultry was dull and neglected on account of the hot weather and the abundance of live stock.

Veals were steady and unchanged. Receipts were heavy, but the demand was slow.

Wool was steady and unchanged. Receipts were light, and shipments were also light. Offerings were heavy but the demand was slow.

Wool was steady and unchanged. Receipts were light and shipments were also light. Offerings were heavy but the demand was slow were were light and shipments were light, and the demand was fair. Quotations: Creamery—Receipts at St. Louts were light, and the deman

the street of th

IN CHICAGO MARKET.

WHEAT WAS IRREGULAR-SENTIMENT DIVIDED.

Provisions Were Steady and Prices Somewhat Higher - Oats Active and Higher.

Chicago, Ill., July 18.-Wheat was irregular, feeling mixed and sentiment divided, the majority of traders favoring the selling

Corn was active and nervous, lower early, but reacted and closed higher. Oats were active and closed at the top.

Provisions were steady and prices some

what higher, with a good business reported.

and the total from July 1 to 15 aggregates 8,237,000 bu., as against 5,170,000 bu. in 1900, and 3,039,000 bu. in 1899. Laverpool quoted spot wheat ½d higher, excepting California, which was unchanged, and futures steady to ¼d higher. London was also ¼d to ¾d higher, and Paris was off ¼c, while Antwerp was up 1¼c. The weather in England is reported hot and France warm. Four news was more encouraging, output this week is 452,000 bbls., last week 350,000 bbls., and 412,000 bbls. last veer.

news was more encouraging, output this week is 452,000 bbls., last week 35,000 bbls., and 412,000 bbls. last year.

Clearings were again liberal, 957,000 bu., and on the coast 88 boatloads were accepted. Receipts in the Northwest were a little smaller than last year, but local receipts were liberal and the quality is still excellent. The shipping inquiry is fair, principally for the new wheat; sales are moderate. Foreigners were credited with purchases early, and later the Northwest was reported selling both Sept. and Dec.

Acceptances through the West are said to be better than they have been of late. The crop in Russia is not expected, at best, to exceed an average, and in some districts it has been almost destroyed by unusual heat and drought. Charters here were about 400,000. All the early decline was recovered. Receipts at Duluth were 22 cars, and at Minneapolls 184, against 176 cars yesterday, and 234 last year. Local receipts were 331 cars, against 113 cars one year ago. There were also 67 cars from unilcensed elevators. Estimated receipts for to-morrow are 205 cars. Withdrawals here were 58,690 hu. The receipts at Western primary points were 550,394 bu., against 661,104 hu. last year. Shipments from there were 446,917 bu., against 713,775 bu. last year. Exports of wheat and flour were equal to 966,215 bu.

Corn.

Sec. 215 bu.

Corn.

Corn was active and nervous again, prices covering a range of 1% to 2c. The market opened %4% lower, railled about 2c, eased oif a fraction and closed with Sept. 1% hither, Dec. up 1c and May fully le better. The lower opening was due to showers, the maps showing more moisture than any day in weeks, and heavy rains at Wichita, good showers in Missouri, light showers in Illinois and Iowa and heavy rhowers in Indiana and Ohio. Topeka wired the secretary of the Kansas Board of Agriculture lelt sure that the yield would reach half a crop at least if present favorable weather continues. There was heavy commission-house selling at the start, but the same was readily absorbed by prominent locals and more was wanted, the market advancing on reinstating of lines liquidated yesterday. The Price Current stated that corn promise was further reduced with the present indication for a yield of 1,500,000 bu. The private advices in the West were as gloomy as any that have been received, some advices even claiming the situation was growing worse daily. Omaha, Neb., wired that feeders were bidding 50c all over the State for corn. The Signal Service predicted further showers throughout the corn belt. Liverpool quoted futures ½d higher. London steady to

Rye. Rye was firmer and prices %c higher for Sept. and unchanged for cash. A fair demand existed on speculative account and offerings were light. Possibly the shorts are covering. In cash there was nothing of special interest. Receipts were 10 cars, and there were no withdrawals from store here, and no export clearances on the seaboard. No. 2 to go to store 52c; on track and f. o. b. 5114652c; No. 3 nominally 50c; No grade 49c f. o. b.

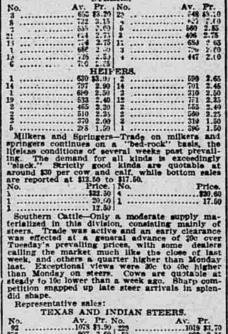

MARKETS BY TELEGRAPH.

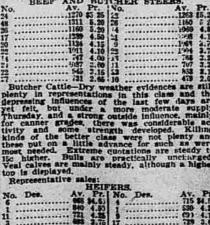

There was fair trading in wheat and an unsettled, irregular market, fluctuations covering a range of ic to 1½c. The feeling was quite mixed, and sentiment was divided, but a majority of operators apparently were more disposed to favor the selling side, and the final figures showed Sept. off a fraction and Dec. down ½c. Commission-house selling was much in evidence early, the more moderate temperatures in the Northwest, heavy rains in South Dakota; rather disappointing cables and Price Current estimate all tending to create a more bearish feeling. The Price Current stated the position of the crop was but little changed, and estimated the yield at 715,000,000 bu., and that of the world at \$0,000,000 bu. more than last year. The Northwestern Miller claimed the losses from heat in South Dakota and Southern Minnesota were unimportant. The primary and the total from July 1 to 15 aggregates \$237,000 bu., as against 5,170,000 bu. in 1899. Leverpool quoted spot wheat ½d higher, excepting California, which was unchanged, and futures steady to ½d higher. London was also ½d to ½d higher. Each of the content is 2000. The conte refined firm, Continent 38.25; S. A. 38.30; compound 5197.125; Porth firm, Tallow steady; city (25 per pkg.) 4%c. country (pkgs. free) 44.25%c. (Cotton-seed oil nominal. Rice firm.
